

3.6.2 Snapshot Survey

The purpose of this Snapshot Travel Survey is to gather information to calculate the percentages of employees using different methods of travel to reach their work place.

All employees are asked to spend a few moments completing this form and returning it to:.....(named person)..... by(date).....

1. Name: (Optional, but this will help if you have any specific problems with your travel.)
2. Female Male (Indicate with a "X")
3. Post code: (If you do not want to give your full post code then please give the first section and the first number of the second section, eg. NE9 5)
4. Fill in the table below with a "X" to indicate your method of transport in both columns. If you use more than one method then please indicate only the one which involves the longest journey:

	Method of transport today	Usual method of transport
Walk		
Bicycle		
Motorcycle		
Metro		
Train		
Bus		
Taxi		
Car Share (as passenger)		
Car Share (as driver)		
Car driver by yourself		
Other (please specify)		

5. Have you any specific problems with travelling to or from this building? Please state:
.....
.....
.....

Thank you for taking the time to complete this survey.
